Skills

C | C++ | Python | Spring-Boot | DSA | MySQL | MERN | Git | Flutter | Firebase | SQL | OOPs | Problem Solving | DevOps

Work Experience

Google Cloud Arcade

July- Sep' 24

Completed a competitive, hands-on cloud development externship by Google Cloud, focused on real-world application of cloud technologies. Built Python-based microservices and deployed scalable solutions using Google Cloud services such as Compute Engine, Cloud Storage, and BigQuery. Collaborated in a team-based environment simulating industry practices.

- **Tech Stack:** *Python, Google Cloud (Compute Engine, Cloud Storage, Big Query).*

Education

Thapar Institute of Engineering & Technology, India

2024 - 2026

- *Master Of Computer Application*

Lucknow Public College of Professional Studies, India

2021 - 2024

- *Bachelor Of Computer Application*

Bal Vidya Mandir Senior Secondary School, India

2020 - 2021

- *CBSE (Class XII) Non- medical*

Projects

DLab (Active Project) | Group Project

[Github](#)

A **Web3-powered group project** where organizations post surveys or data labeling tasks, and users earn **Solana-based micro-payments** for completing them. Ensures **secure transactions, decentralized storage, and seamless user experience**.

- **Tech Stack:** *Next.js (React), TypeScript, Node.js, Express.js, Web3.js, Solana, Solidity, Amazon S3.*
- **Role:** *Team lead, full stack developer*

UCreate

[Github](#)

A **no-code website builder** using **AI-driven tools** to allow users to create professional websites effortlessly only.

- **Tech Stack:** *React (TypeScript), Node.js, and Web Container Technology.*
- **Features:** *Multi-language support, real-time previews, customizable templates.*

Progress | Group Project

[Github](#)

A cross-platform mobile app designed for **habit tracking**, featuring **real-time progress monitoring, note-taking, and heat mapping** to visualize daily activities. It also integrates an **AI-powered assistant**, enabling users to interact with assistant for personalized insights and responses.

- **Tech Stack:** *Flutter, Hive, OpenAI API*
- **Role:** *Team lead, full stack developer*

Academic and Extra Achievements

- Academic Excellence – 95.2% in Class XII; awarded Merit Distinction.
- Solved 300+ LeetCode problems across all difficulties with a 223-day streak (and counting)
- Advanced Software Engineering Job Simulation (Virtual Internship), Walmart Global Tech
- Won an **IIT Bombay certificate** by leading a team to develop a solar panel-based IoT project.
- Certified in Cybersecurity – PrepCode.
- Hackathon Leader & Participant – Organized and participated in inter-college hackathons.
